

## Annual Tristar Blood Donation 2012

The Annual Tristar Blood Donation for Jebel Ali Industrial Area-based professionals and workers was held on 5th September. The medical staff from the Dubai Blood Donation Center (DBDC) of the Dubai Health Authority conducted the blood donation. DBDC is the only blood supplier in Dubai. Some doctors and scientists believe that giving blood may prevent heart disease. Although no conclusive evidence is available, numerous physicians have noted that blood donors typically have fewer cases of heart disease than non-donors.
