Tristar Warehouses Get DMCC 5-Star Rating

The warehouses at the Head Office and Jebel Ali Industrial Area No. 1 have been certified by the Dubai Multi Commodities Centre or DMCC which is part of Dubai Government as 5-Star!

This is the second time Warehouse 1 has received the 5-Star certificate. The first one was in October 2015.

A 5-Star rating means that the Tristar warehouses are endorsed to companies within the Tradeflow online platform of DMCC.

DMCC Tradeflow is a dedicated flexible and customised online platform for registering possession and ownership of commodities stored in UAE based storage facilities. It is a specialised, interactive ownership registry that brings together all stakeholders related to the trade and financing of physical commodities. Established in 2004 as a warehouse receipt system, DMCC Tradeflow has evolved to regulating and documenting commodity trading operations in the UAE as part of the Dubai Government.
