

Tristar Global Safety Day 2017

The Tristar Group celebrated its annual Global Safety Day on April 27 to coincide with the International Labor Organization's World Day for Safety and Health at Work which was on April 28. The various operations of the global network of the UAE-based fully integrated liquid solutions provider also discussed the same safety day theme that was presented at the Tristar's head office in Jebel Ali, Dubai.

The theme 'Think Safe. Work Safe. Be Safe. From Safety Day....to Every Day' highlighted the importance of safety not just as a one day action but an everyday activity that should be embraced by each Tristar employee, both on and off the job.

Tristar is present in Haiti, operating in Africa in countries such as Liberia, Central African Republic, Kenya and South Sudan, in the GCC, as well as in Pakistan and in the Pacific island of Guam.

Tristar Group CEO Eugene Mayne (far right) led customers, partners, suppliers and staff in signing the safety day banner as a pledge to be safe every day.

Mr. Mayne was interviewed by the radio network ARN News. [Listen to Mr. Mayne here.](#)
