ABOUT US

Tristar is a fully integrated energy logistics solutions provider that offers a comprehensive list of services to cater to the needs of the petroleum, chemical and petrochemical industries in the region. The company's core expertise lies in its ability to safely handle and distribute all types of retail fuels, lubricants, chemicals, petrochemicals and liquid cryogenic gases. We also have recently established a technical center in Dammam (KSA) to provide cryogenic repair and maintenance services to our valuable clients.

Cryogenic Products Transportation

We provide a wide range of Cryogenic Liquids Transportation Services to our clients. We render safe and efficient transport of goods.

Cryogenic Assets: Leasing / Rentals

We offer cryogenic assets (ISO tanks / Road tankers) on lease and rent with capacity ranging from 18,000 L to 34,000 L to meet our clients' requirements.

Inspection and Certification

We offer a full range of services for periodic inspection / certification of cryogenic assets (ISO tanks, road tankers, storage tanks, etc.) through approved certification bodies ABS or BV.

Cryogenic Assets: Repair and Maintenance

Our 20,000 sq. m. dedicated workshop located in Dammam, KSA is exclusively for cryogenic repair and maintenance of cryogenic assets. A team of highly specialized professionals and technicians with 20+ years of experience are available for all types of repair / refurbishment of cryogenic tanks, tankers, ISO's and dewars, etc.

- Vacuum leak repair and upgrade of cryogenic mobile / stationary assets, cryogenic tank pipelines and vaporiser coils.
- Calibration of Relief devices / pressure of level gauges.
- Reconditioning / Replacement of Cryogenic Valves, Relief Valves and pipeline.
- Repair of Cryogenic liquid tanker pumps / cylinder filling pumps.
- Installation of alternators for cryogenic liquid road tanker pump operations.
- Preventive maintenance for cryogenic assets and carriage maintenance of road tankers.
